Marc

I think CBSA is at command post can you see the below message for a drop off and CBSA knowledge.

Thanks

Just going through emails.

Jamie

OK. So we will take the trucks and any barriers available.

Delivery to 780 Huron Church Rd Windsor. The drop off is behind the secondary building.

I will try to have someone there to meet them. If I cannot the drop off should be obviously as it is a very large area and it's out of sight of the main road.

Jamie, can you ensure someone at CBSA knows of this delivery also your night officers in case it gets asked at a check point.

Many thanks to all who have helped facilitate this.

Shawn

1. Windsor Essex Parkway Group can provide **6 pieces of equipment**. We plan to tell them the equipment is needed for **6am tomorrow**. They will need to know where it is to be located.
2. We have not sorted out the barriers yet.

Subject: RE: Proposal for vehicles removal

Good Evening Jasan and Geddes,

I have just spoken with OPP.

They are asking for what the delivery time would be on 4-6 heavy vehicles to assist with blocking roads. The plan would be not to have the drivers sit with the vehicles, and that they would leave the vehicles with OPP.

They don't have a number for jersey barriers needed yet, however, they are asking if they were to request a flat bed full, for example, what is the delivery time on that request?

No requests for tows at this time, but may need it in the next few days, so will reach out if it is needed. They would rather not use a tow vehicle as a blocking vehicle due to the nature of the sensitivity of that industry through the convoy activity. Currently they have tow trucks from Michigan because they were unable to find local towing companies who were willing to assist.

In summary, there are three answers requested:

1. Delivery time for 4-6 heavy vehicles
2. Delivery time for Jersey Barriers
3. Delivery time for Tow truck request

This will help them to plan so they know what time to make the formal request. They will have to coordinate tomorrow for the heavy vehicles due to the current time.

Please let me know if you have any further questions.

Jessica

Hi Jessica - Assuming that you will connect with the OPP. Want to maintain confidentiality regarding the name of the towing company.

Could connect them directly to the OPP. The OPP calls don't show the number, so if OPP plans to call them, please give me the name of the officer who will call so I can give [REDACTED] a heads up.

Jasan, to simplify the cost we would use the pilot hourly rate, plus an extra 30% to accommodate the stickers fuel and extra hourly rate for our drivers.

Our rate would start from the time we get deployed to the time we return to our yard.

We are not liable for any damages to vehicles.

Area would have to be clear of all drivers and protesters.

And we would need strong police protection.
